Property Manager Reports - Enhanced (tab 2)

If the building is decommissioned or not live, there may not be any results. If there is NO data for any of the metrics, then it will show as a 0 (which will be a flat line on the graph).

IOTAS Building Map

IOTAS Building Map

Map based on Longitude (generated) and Latitude (generated). Color shows details about Building Name. Details are shown for Zip Code, State 2 and Property Manager Report Link. Map coloring shows 2018 Renter Occupied Housing Units by State. The data is filtered on Status, Account Name, Prospect Tour1, Property Management Software, Project Success Manager, Pmi Integrations, City and Ztate. The Status filter keeps LIVE. The Account Name filter keeps multiple members. The Prospect Tour1 filter keeps Null, False and True. The Property Management Software filter keeps multiple members. The Project Success Manager filter keeps multiple members. The Pmi Integrations filter keeps 29 of 29 members. The City filter keeps 97 of 97 members. The Ztate filter keeps 36 of 36 members. The view is filtered on Building Name, Manager First Name as an attribute and Email as an attribute. The Building Name filter keeps 182 of 182 members. The Manager First Name as an attribute filter keeps no members. The Email as an attribute filter keeps no members.
